ROLL OF STUDENTS
OF
SOUTH CAROLINA COLLEGE

1805-1905

Address all communications in regard to errors,
etc., to Prof. Andrew Charles Moore,
South Carolina College,
Columbia, S. C.

Introduction.

This pamphlet is issued with the hope that the alumni and friends of the College into whose hands it may fall will cooperate with the compiler in correcting all errors. It is by no means perfect in its present shape, but as nearly so as it can be made at this time.

It is published very much as it appeared in *The State* from time to time, with such amendments and corrections as have been sent in.

It must be understood that the publication of this list is preliminary to the publication of a more complete catalogue, containing short biographical sketches of each man. The data for this comprehensive work comes in very slowly, and, since accuracy is more to be desired than early publication, the work has not been unduly hurried. A large amount of material is already in hand, and with the cooperation of the alumni the volume will be completed in due time.

Meanwhile, in view of the great interest in the approaching centennial, it has been deemed advisable to issue this preliminary roll. The list is arranged according to years, giving first the graduates and then those who for any reason left the various classes during the year without graduation.

An appeal is hereby made to the alumni, their friends and relatives, to note omissions, errors in the spelling of names, or of any other kind, and to

communicate the same to the undersigned.

By the publication of this roll *The State* is doing a great work for the College, which is duly appreciated by the College and its friends. The editor of the roll desires to express his personal appreciation for the invaluable service.

For the more comprehensive catalogue, blank forms are being sent out asking for the following items of information: Full name; present address; names of parents; date and place of birth; where and by whom prepared for college; date of entrance; home at time of entrance; literary society; fraternity; date of graduation and degree received (or date of leaving if before graduation); subsequent studies (professional, etc.); professional or honorary degree; civil, military or professional record with some fulness; publication; name of wife; date and place of death; names of nearest relatives who attended the College.

These blanks are being sent out as rapidly as addresses can be found, but great difficulty is experienced in finding parties who can give full and accurate information in regard to many of the older alumni. Friends and relatives who can give any information are urged to write to the editor of the catalogue, who will furnish them the blanks.

ANDREW CHARLES MOORE.

Blanks for records to be inserted in the forthcoming volume of sketches will be furnished upon application to Prof. Andrew Charles Moore, South Carolina College, Columbia, S. C.

After its close in June, 1862, when its buildings were occupied by the Confederate government for a hospital, the South Carolina College did not open again till 1866, when, under an amended charter, it was reopened as the University of South Carolina. The admission of a colored law student in 1873 caused the resignation of the old faculty and the withdrawal of almost all the students.

Another reorganization followed and students were admitted regardless of color, the instruction being practically that of a preparatory school. In 1877 the College was again closed in consequence of the unsettled political condition of the State. It was reopened in 1880 and has continued in successful operation to the present time.
